

Input data files, in two  
possible data formats:  
\*\*\*.inp (ascii), or  
\*\*\*.binp (binary)

```
graph LR; A[Input data files, in two possible data formats: ***.inp (ascii), or ***.binp (binary)] --> B[RADMC-3D  
radiative transfer calculation]; B --> C[Output data files, in two possible data formats: ***.out (ascii), or ***.bout (binary)]
```

RADMC-3D  
radiative transfer  
calculation

Output data files, in two  
possible data formats:  
\*\*\*.out (ascii), or  
\*\*\*.bout (binary)
